The report is as follows :

Report of Committee on County Roads.

To the Warden and Members of Norfolk County Council.

Gentlemen :

We, your Committee on County Roads, beg leave to report as follows :

In visiting the different construction works in the system we have found everything progressing very satisfactory. The maintenance work is being spread fairly well over the County. The work on Roads Nos. 21, 20, and 2A has been held up this fall on account of early wet weather. but expect it to be resumed next Spring as soon as the weather permits.

Machinery has been purchased as recommended and trucks used for long distance haul for material. This we find far more economical than the same work done by teams, and consider that more of them could be used with advantage in the system.

We have visited other Counties and by comparison we are convinced that the expenditure on Road No. 96 is justified, and that Water Bound Macadam Construction will not stand up under heavy traffic.

The labor situation has been modified somewhat this season, and no doubt next season will see a further change.

There will be a considerable change in the cost of material in the near future.

These facts we think would justify a continuation of work equal to, if not in excess of this year.

All of which is respectfully submitted.

(Signed) W. J. SCHUYLER, Chairman.

“ A. O. SANDHAM,

The report is as follows :

Report of Finance Committee.

December 10, 1921.

To the Warden and Members of the County Council of the County Norfolk.

Gentlemen :

Your Finance Committee beg leave to report as follows :

We have examined the Auditors' Statement showing a very condensed and general statement of Receipts and Expenditures for the first Eleven months of the present year. This statement shows a credit balance on January the first, 1921 of \$19300.22. The amount on hand as of Nov. 30, 1921 is not given. In this respect the statement would appear to be in error.

Disbursements on the County Road System taken from the Distribution Sheets are given as follows :

January \$19157 81; Feb. \$11144.63; March \$16373 83; April \$5088.95; May \$20579.77; June \$86098.05; July \$37189.59; August \$37538 16; Sept. \$118276.05; Oct. \$40200 32; Nov. \$30051.53.—Total \$416651.69.

We have examined the books of the Treasurer and find that in respect to the general business of the County his records are complete, give full detail and are systematically arranged.

The Auditors' statement however is lacking in one vital point, it does not show what the County's Indebtedness to the Bank is, either in the general account or in the County Road Account.

We would recommend that the Clerk confer with the Auditors before they bring in their annual statement.

The following office furniture has been purchased and should be noticed in the formal statement of assets :
